

John Bapst Memorial High School Parents' Association

The Parents' Association includes all parents and guardians of current John Bapst Memorial High School students. The goal of the Parents' Association is to serve as a liaison between the school and the parents, helping in a variety of ways to promote communication, cooperation, and support, all in the interests of helping our students to have the best possible experience at John Bapst. A volunteer organization, the Parents' Association takes pride in the accomplishments of all students and faculty, supporting their efforts with enthusiasm.

The Parents' Association participates and in some cases sponsors several key events each year. These include the October and March Open Forums with the Head of School and other administrators.
